

ISSA HASSAN

5A Letourneau Street
Ottawa, Ontario, K2J 5A7
(613) 894 0135, IssaHassan@cmail.carleton.ca

EDUCATION

Bachelor of Engineering (B.Eng.), Software

September 2014 - Present

Carleton University, Ottawa, Ontario

- Third year standing

WORK EXPERIENCE

Founder

March 2016 – Present

Eventz, Ottawa, Ontario

- Creating a mobile application to connect people with events in their area
- Designing a simplistic and attractive user interface using XML and Google Material Design guidelines
- Writing concise and efficient code using algorithms and data structures concepts learned in class
- Designed an attractive landing page to give an online presence to the app and allow potential users to sign up before the launch date

Tutor

September 2015 – April 2016

Chegg Inc., Santa Clara, California

- Teach Computer Science, Math and Physics to students online, obtaining a 90%+ student satisfaction rate
- Communicate with students across the world using text and visual diagrams, transcending culture and language barriers

APPLIED PROJECTS

Television Show Tracker – Web App (2016)

- Created a web application that searches for television shows online, finds the show times and displays them to the user

File Sharing Simulation – Course Project (2015)

- Created a simulation environment for a file sharing website that allows users to like and produce documents using Java and object oriented design principles

Forex Calculator - Android Application (2015)

- Published a mobile application to the Google Play Store that allows new forex traders to manage risk, calculate position size and calculate required margin
